

Box 353
Meaford, Ont.
Nov. 11, 1953

Dear Edith,

Don't ever be put off writing us if you should forget the P.O. box no. We would always get our mail, but we've been requested to ask our correspondents to use the box no. Meaford's population has grown quite a lot, and the Post Office is hardly big enough.

Thank you very much, Edith for sending these letters. I read them to the company, and all were interested if not maybe too duly "edified." I bought Mr. Butchart's book on the
(over)

Disciples of Christ" etc. maybe a year ago, and have not got all the references to our family and friends read from it yet. I lent it to Floy in the summer, and she made some notes to look up.

That was strange to run into a cousin in Italy! And again in Toronto. A "wee world" eh?

Floy would tell you about our various healths and not so healthy-ness. We are still about as she saw us. I hope you and the Doctor are going strong. Will it be Italy again this winter? I think you ought to

write a book about your travels. Send it to me in instalments as written. I don't want much?

It was when Floy was here that we read of Sophia Buckingham's marriage. Floy seemed to know of her husband's people, and said they were very fine people. I thought of Annie as I passed through Guelph a few weeks ago motoring home from Hamilton after a little visit there, and wondered who was in her old home. November is giving us such fine weather I

wish you folk would
take a drive up yet.

The scenery is pretty fine
even at this season, with
carpets of brown leaves
under the trees, etc, etc.

Will close now with
best love from Louie,
Sophie, Margaret and
Bird.

Thanks for
compliment
re "sweet disposition"
undeserved as
it might be in a
few cases. Thanks.

B. Lunter
